

QUALITY POLICY

At Alpha Brain Technologies, we are healthcare entrepreneurs, neuroscientists, data scientists, engineers, and designers, working together to alleviate the growing global burden of neurological and psychiatric disorders.

Our main activities are design and development, production and service provision, and control of manufacturing and distribution of the medical devices for anomaly prediction and closed-loop intervention devices for neurological disorders.

We are committed to maintain and continuously improve the effectiveness of our quality management system, through the following activities

- ❖ Compliance with applicable standards and regulation requirements;
- ❖ Co-creating products together with patients to meet their requirements, needs and expectations;
- ❖ Developing staff competencies, fostering knowledge and growing the expertise by using the new technologies

This Quality Policy provides a framework for establishing and reviewing quality objectives and by implementing it, I expect commitment and support of all staff and affiliated entities.
